WALLPAPER REMOVAL POLICY

Over the years we have found that it is impossible to provide accurate pricing for wallpaper removal. There are just too many unknown variables that effect the time required. The type of paper, the number of layers of paper, the type of primer that was used on the wall, the type of paste used and the type of texture that's on the wall, all impact the ease of removal. Then once the paper is removed the walls may need major patching or skim coating to prepare them for new paper or paint. As a result of all these factors our estimates are only a guess and sometimes a very bad guess.

Our policy is to provide an allowance for the time we estimate for removal. The actual cost of the removal and wall preparation after removal will depend upon actual time spent (charged at our shop rate) plus materials. We have found this is the only fair way to perform the work both for our customers and ourselves.

Please call our office if you have any questions. We would be glad to explain or discuss this policy.
